IN THE HON'BLE NATIONAL GREEN TRIBUNAL
AT NEW DELHI

Original Application No. 199 of 2014

BETWEEN :

ALMITRA H. PATEL & ANR.

...PETITIONERS

AND

UNION OF INDIA & ORS.

... RESPONDENTS

STATEMENT OF RESPONDENT, BRUHAT BANGALURU
MAHANAGARA PALIKE, BANGALURU, KARNATAKA

That the Respondent - Bruhat Bangaluru Mahanagara Palike hereinafter referred to as BBMP, humbly submits as herein below in response to the orders of this Tribunal dated 28.07.1997 :-

- 1) That the BBMP respectfully submits that the city of Bangaluru generates around 3500 Tones of Municipal Solid Waste daily. The BBMP is carrying out collection, street sweeping, transportation, processing and disposal of the Municipal Solid Waste as per the Municipal Solid Waste Rules 2000. BBMP has made mandatory for 3 type segregation i.e. Wet, Dry and Sanitary waste for which massive Door-door campaign have been conducted involving all stakeholders and also to minimize waste going into landfills. To encourage segregation at source

BBMP has established 188 Dry Waste Collection Centres, which collect only dry waste from Wards, Bulk Generators of Waste like Hotels, Restaurants, Kalyan Mantaps, Apartments etc., have been notified to establish a system to handle Municipal Solid Waste generated in their premises or through empanelled service providers. Seven sites have been identified for disposal of construction and demolition waste in the city, BBMP has set up 13 decentralized Bio-methanisation Plants.

2) That the BBMP respectfully submits that the city of Bangaluru after taking all these measures, the quantum of waste which being received at the BBMP processing centers is around 3000 TPD. The same is being managed through the Private Processors and the details along with the locations are furnished below :

- a) Terrafirma - 850 TPD
- b) MSGP - 500 TPD
- c) KCDC - 300 TPD
- d) Mivallipura - 300 TPD

3) That the BBMP respectfully submits that the city of Bangaluru to achieve 100% processing of waste, government has sanctioned setting up of six new facilities and upgradation of one facility. These new facilities are established at the following locations :

- a) Kanahalli - 500 TDP
- b) Seeghalli - 200 TDP
- c) Dodabidarakullu - 200 TDP
- d) Lingaderenahalli - 200 TDP
- e) Subrayanpalya - 200 TDP
- f) Chikkanagamangala - 500 TDP
- g) KCDC (upgradation of existing facility) - 500 TDP

TOTAL - 2300 TDP

- 4) That BBMP respectfully submits that the 6 new plants have already started functioning. This would ensure 100% processing of waste being generated in the city. In addition to these, approvals have been given to following waste management plants on PPP framework.

- a) M/s Satarem Enterprises - 1000 TDP
- b) M/s Organic Waste India - 600 TDP
- c) M/s Essel Group - 600 TDP

These plants are on PPP framework and would take minimum two years' time to be established.

- 5) That BBMP most humbly submits that the following Waste to Energy Projects are in pipeline :

- a) M/s Green Elephant Engineering Pvt. Ltd. – 50 TDP of wet waste
- b) M/s D & S Renergies Pvt. Ltd. – 200 TDP of wet waste
- c) M/s Nexis Novus – 600 TDP

Once all the above facilities are made fully functional, the city would have facilities catering to the requirement of Waste management. BBMP has created the processing capacity much more than the present requirement. In the newly established six plants it is ensured that wet and dry waste are transported in segregated form only. Presently, there is no direct land filling carried out.

- 6) That it is further submitted that the process of Buffer zones around the Processing landfill sites has been initiated as per the Karnataka State Pollution Control Board guidelines - vide notification no. PCB / WMC/ SEO/ NDZ – buffer zone / MSW / 2013-14/6272 dated 05-02-2014. GIS survey is almost being completed and on ground survey to demark the boundaries and identifying the land details is nearby completion. The process to compensate through economic instruments to those villages hosting waste-processing sites has taken up on priority and also health check up camps is also

being hosted. And formulation of policies to compensate those properties falling within their Buffer Zones is also being taken up on priority. Also infrastructure development like construction of roads and drains, establishment of RO plants and fencing of lakes are also being taken up around plants surrounding villages.

AND FOR THIS ACT OF KINDNESS THE PETITIONER
SHALL AS IN DUTY BOUND EVER PRAY.
